| NC-1 | Hadapsar | The RO-H1 disinfection log had no entry for August 2026.                     |
| NC-2 | Pimpri   | Hand hygiene audits were done quarterly instead of monthly.                  |
| NC-3 | Kothrud  | The colour-coding chart for bio-medical waste was missing in the store room. |

Corrective action evidence is due by 24 October 2026.

### **Good practice**

The Hadapsar water incident was handled well: dialysis was moved to Kothrud and resumed only after a clean resample.
